Dear Customers of the company,

Our company highly appreciates your trust and places great emphasis on protecting your data, including personal data, during their processing. The company processes all personal data solely in accordance with applicable legal regulations governing their protection.

The aim of this statement is to inform you about the processing of personal data that occurs in connection with your visit to our website, as well as about some other cases of personal data processing.

Cookies

This site uses cookies to improve the quality of its services. By browsing the site, you agree to their use. To ensure the proper functioning of this website, we sometimes save small data files, called cookies, on your device. This is common practice for most websites. In some cases, these files may also contain personal data. The transfer of such data to other servers is managed by the user's browser. You can prohibit the use of these files in your browser, but we do not recommended this because you may significantly reduce the functionality of the site.

What are cookies?

A cookie is a small text file that a website saves on your computer or mobile device when you browse it. With this file, the website keeps track of your actions and preferences (such as language, currency, country, identification of an unsigned user to retain the shopping cart, etc.) for a certain period of time, so you don't have to specify them again when you visit the site next time or when you browse its individual pages.

How do we use cookies?

This website uses cookies to remember user settings and to ensure the necessary functionality of the website.

How to control cookies?

You can control or delete cookies at your discretion – for more details, see **www.aboutcookies.org**. You can delete all cookies stored on your computer, and most browsers can be set to disallow their storage. However, in that case, you may need to manually adjust some settings each time you visit a website, and some services and features may not work.

How to refuse the use of cookies?

The use of cookies can be set up using your Internet browser. Most browsers automatically accept cookies by default.

Using analytics tools and social network plugins

The company website may also include analytics tools to track the behaviour of its users, and third-party social plugins that allow the website visitors to share content with their friends and other contacts. If this happens, we will ensure that this information is included in the privacy statement on our site.

These are primarily the following tools and plugins:

Google Analytics is an analytics tool for tracking user behaviour on the Web and in applications. In Google Analytics, a customer is only evaluated based on Cookies. TG Automation s.r.o. does not send any personal data of users. The definition of data protection and security can be found at www.google.com

Facebook plugin, maintained by Facebook Inc., 1601 South California Avenue, Palo Alto, CA 94304, USA;

YouTube plugin, maintained by YouTube, LLC 901 Cherry Ave., 94066 San Bruno, CA, USA, a subsidiary of Google Inc., Amphitheatre Parkway, Mountain View, CA 94043;

Instagram plugin, maintained by Instagram Inc., 1601 Willow Road, Menlo Park, California 94025, USA.

Please note that these social plugins and analytics tools are not maintained by our company and we are therefore not responsible for the potential processing of personal data by the aforementioned operators (administrators) of these plugins or the websites they link to, for their functionality or any potential damage they might cause.
